PETITION IN RELATION TO THE HELENA AURORA RANGE (BUNGALBIN)

To the President and Members of the Legislative Council of the Parliament of Western Australia in Parliament assembled.

We the undersigned residents of Western Australia support the protection of the beautiful and unique Helena Aurora Range (Bungalbin) in the Yilgarn region of WA. This banded ironstone formation ('BIF') range has been recommended for protection since 1980 by scientists, government agencies and community and environmental organisations. Despite this it continues to be under threat from destructive mining proposals.

Your petitioners therefore respectfully request the Legislative Council to support the protection of the outstanding natural, geological, cultural and social values of the range via the gazetting of the range as an 'A' Class National Park and to convey this support to the Government.

And your petitioners as in duty bound, will ever pray.
